Spirit in Action April May 2010

Excerpted from Divine Science and Healing by Malinda E. Cramer p.63-65.

4. Divine Science transfers the attention from the visible to the invisible and thus changes the basis of our affections. Through its study one becomes conscious of being invisible and unlimited Spirit, and as one can not love the immortal until he knows himself to be it, he can not have true beliefs about his body until he sees the true nature of its substance and knows how it is that the Word, which is God, has become flesh in his form, and is full of grace and truth.

5. All visible things are Idea or Soul before they are expressed in form and this Idea is in Infinite mind, or this Soul is in Holy Spirit . For this reason body always senses Divine harmony when thought, the instrument for expressing, pictures forth true Idea. Nothing but effect can be affected by Cause; the Thinker

is above and beyond change – at-one with the Infinite source. This is Law, nor ever is it otherwise.....To let go of the past and live in the present, and in the Omnipresence of Spirit is to live in life. To let go of the belief of non-possession and acknowledge that all possibility is yours now, is to live in the fullness of Spirit – the Kingdom of Unity. Now is the eternal present within and about us. What we do not recognize as being present and claim as ours we do not enjoy. Then, claim health, power, knowledge, good – in short claim wholeness, that now are you complete in the Infinite Good; and you will enjoy it and have peace and rest....This consciousness is above the plane of expression and knows no limitation.

6, Divine Science is in the world at the right time, and in the right way; it has been formulated to teach Truth, which to know is the freedom of Life Eternal.

WELCOME to our new home office, a short walk from Rutland's still active train station. Our office is located in a sturdy red brick building (formerly a bank). From the inside hallway, two large windows look into a gracious reception area with comfortable upholstered chairs around a large coffee table (all donated). On the morning I visited, there were welcoming flowers on the table along with a coffee cake, tea, and coffee.

Just off this area to the right is our new library, where newly donated book cases (hand-made of wood and fitted with precision,) house row after row of books, available for use only on the premises by anyone interested in researching the history of our denomination.

To the left lies the busy working office of our Executive Director, Patricia Kreitzer, which houses her desk, our indispensable printer, and a great new Mac computer (donated). There is also space to house our large inventory of book and pamphlet publications for sale.

—Rev. Dr. Jane Kopp

For those who may wish to visit our office for research, Rev. Peter Miller has offered his guest room as a bed-and-breakfast The payment would be given as a donation to DSFI. Contact Patricia for details.

MAKE YOUR RESERVATION
DSFI Biennial Conference/Retreat 2010
at Mercy Center, St. Louis, MO from July 19 – 22. *Remembering God* will be organized in a retreat format, with extended interactive and contemplative workshops including: Meditation, Contemplation, The Mystic Life, Thought Now. Special sessions offered include: Inviting Congregations, New Ministries, & Music Ministry. Affordable rates for meals and lodging are included in the registration for participants staying at the conference center, which is situated on verdant grounds. The emphasis during the conference/retreat will be on spiritual renewal and fellowship. Contact the DSFI office for information.

MAY IS MEMBERSHIP MONTH *In the work of Divine Science there is no realizing sense of want. The demand for the work includes everything needful for its completion; for this reason it is supplied.* Divine Science and Healing, Malinda E. Cramer p.26
For many years, the monthly DSFI expenses have exceeded our income. Now is the time to become good stewards of our resources and to support the work of DSFI.
